PROFESSIONAL SUMMARY

Mobile Application Developer with experience building and deploying Android/IOS applications using React Native, JavaScript, and TypeScript. Skilled in REST APIs, Firebase, performance optimization, and end-to-end app releases. Proven ability to improve app performance, reduce bundle size, and deliver scalable, production-ready mobile solutions.
Strong collaborator with a focus on clean code, smooth user experiences, and scalable architecture.

TECHNICAL SKILLS

Mobile: React Native, Android / IOS development, Geo-location APIs, Firebase Cloud Messaging, Cross platform development

Programming Languages: JavaScript, TypeScript, Java, HTML, CSS, SQL

APIs & Integration: Restful APIs, Third-Party API Integration, Jwt Authentication, Zustand, Context API, Payment Gateway (Razor Pay), FCM

Database: Firebase Firestore, MySQL

DevOps & Tools: Git, Gradle, CI/CD, Android studio, Xcode, Play store & App store deployment, Apk & Aab generation, Ipa file

Supporting Skills: React.js (Web), .NET / Entity Framework (API consumption context), C#, Swift

WORK EXPERIENCE

Freelance Mobile App Developer | Injection App | Remote

Aug 2026 - Sept 2026

- Developed a **React Native on-demand healthcare service application** enabling users to book home-care services such as injections, BP measurement, blood sample collection etc. based on their location.
- Implemented **location-based vendor booking and service allocation**, allowing nearby vendors to receive and accept available service requests and visit customers at their homes.
- Integrated Razor-pay **payment gateway** for secure online payments and implemented **Firebase Cloud Messaging (FCM)** for real-time booking notifications and status updates.
- Built an end-to-end **booking life-cycle** with real-time notifications for booking acceptance, service start, and service completion, improving communication between users and vendors.
- Implemented **prescription/document upload functionality** during booking creation, enabling users to securely share required medical prescriptions with service providers.

Freelance Back-end Developer | Indian Online Directory | Remote

April 2026 - May 2026

- Developed Restful APIs for an Indian online business directory using ASP.NET Core and Code First approach.
- Implemented JWT authentication and role-based authorization for secure API access. Integrated Cloudinary for image upload and cloud-based media management.
- Independently managed the complete back-end development life-cycle — from database design to API delivery — demonstrating ownership and self-driven execution.

Mobile App Developer | iTechSoft Solution, Ahmedabad

June 2025 - March 2026

- Developed and maintained cross-platform mobile applications for Android and iOS using React Native, delivering scalable and high-performance user experiences.
- Managed the complete Android and iOS release — build generation, versioning, signing, Play Store and App Store submissions, and post-release updates.
- Integrated mobile applications with back-end services, third-party APIs, and authentication systems for seamless and secure data flow.
- Contributed with QA and development team to identify, troubleshoot, and resolve application issues before production releases.
- Participated in code reviews, bug fixing, and performance tuning to uphold high standards of mobile application quality.
- Applied clean code principles and mobile-first best practices to ensure long-term maintainability and scalability.

PROJECTS

Live Project (Ordorite Inventory) | iTech Soft Solutions -

- Upgraded the app's **Android target version from API 14 to API 15**, ensuring compliance with latest Play Store requirements and resolving compatibility issues introduced by the migration.
- Identified, debugged, and resolved critical application errors, significantly improving app stability, performance, and user experience.
- Managed Android build — generating APK files for QA testing and AAB bundles for release deployment.
- Contributed to feature development, code optimization, and testing, ensuring timely and quality delivery of project milestones.
- Owned and executed the **production release of the Ordorite Inventory app** — handling final build preparation, app signing, versioning, and store submission for live deployment.

Fit India App | Self Learning | React Native July-Aug 2026

Git Repository - https://github.com/Shikha-jn/Fit_India_App

- Developed a women focused fitness app using React-Native and Typescript for personalized fitness and wellness management.
- Build trainer and user features for managing clients, workout/diet plans, goals, calories, weight, attendance.
- Implemented paid webinars, subscriptions, zoom meeting sessions and access to recorded sessions.
- Enable user to manage profile, track attendance, view assigned trainers and monitor transactions.

Real-Time Chat App | Self Learning | React Native February 2026

Git Repository - https://github.com/Shikha-jn/Socio_Chat

- Developed a mobile social chat app with swipe-based UI, multi-screen navigation using React Navigation (Stack & Bottom Tabs).
- Built core features including profile browsing, likes system, real-time style chat with message bubbles, timestamps, and online indicators.
- Designed responsive, reusable UI components across Home, Likes, Chats, and Profile modules
- Optimized app architecture using component-based structure and React Hooks for efficient state management

Veterinary Appointment System | Group Project | Java, MySQL, Swing Dec 2023 - Mar 2024

- Engineered a desktop-based appointment management system with role-based access (Admin, Veterinarian, Receptionist) using Java Swing.
- Designed and integrated a MySQL database schema to manage pets, owners, appointments, veterinarian schedules, and billing records.
- Implemented core features: pet registration, appointment booking, treatment history, and payment tracking with robust input validation and error handling

EDUCATION

Bansal College of Engineering Mandideep, M.P.

Bachelor of Technology Computer Science | CGPA: 7.5 October 2021 - May 2025

CERTIFICATE

Java Programming | Prema Software Solutions November 2023

Hands-on training in Java syntax, Oops principle, backend fundamentals

SQL Certificate | Udemy November 2022

Hands-on training in SQL syntax, stored procedure, sql functions
